

The Big Secret Theatre (BST) is a black box theatre with audience downstage and stage right on the main level, and downstage on the balcony level. The venue can be reconfigured to accommodate additional seating on stage left on both the main and balcony levels. Changes to the seating configuration cannot be made without approval from One Yellow Rabbit's Company Manager and will be included as part of your rental fee. This must be obtained a MINIMUM of 2 weeks before your load in date.

There is very little wing space and no backstage area.

The venue floor is concrete throughout. The floor in the playing area is painted black, as is the upstage wall. Please note that the deck and walls may not be screwed, nailed or affixed to.

We do not stock props, furniture, effects, drapery, specialty audio sound effects, rigging hardware and tools, pipe/clamp, carpentry tools, and do not have access to a scene shop. Please make arrangements to bring everything you will need for your production. **This includes any consumables such as tape, lighting gels, gobos, etc. No painting is allowed within the space.**

THEATRE

Stage Area: 29'-6" x 30'-0"

Floor to grid height: 21'-0"

Floor to ceiling: 24'-0"

Floor to balcony LX pipe: 11'-0"

Floor to balcony floor: 11'-10"

SEATING

Main floor: 80 fixed seats downstage on 2 telescoping seating banks; 58 fixed seats on a moveable telescoping seating bank stage right.

Balcony: 28 seats on downstage balcony (restricted view)

Please note: 76 folding chairs are available for use as additional seating on the Main Floor. **The Theatre is normally configured to seat 165.** The maximum total capacity is 195 (which includes ALL bodies in the space, including performers and technicians).

BST is equipped with a 15'-0" rolling scaffold, a 24'-0" Genie lift, a 24'-0" extension ladder, 12'-0" A-frame ladder and an 8' A-frame ladder. Fall protection certification is required for work carried out at heights over 10'-0".

IMPORTANT – PLEASE NOTE

It is possible that any of the above-mentioned equipment may be pulled from the inventory for the purposes of OYR productions or tours. The Technical Director will inform the renter at least 2 weeks prior to their load-in, otherwise all of the above inventory will be made available. Some inventory will involve additional rental cost. Please see rental cost information sheet for details and costs.
